

IMPORTANT INFORMATION

Novel coronavirus infection

Ministry of Health, Labour and Welfare recommends that travelers avoid all nonessential travel to China.

If you come from China, watch your health condition, and take the following actions for the next 14 days.

→ Please DL check list from here.

http://hschome-gw.hsc.chiba-u.jp/pdf/Coronavirus2020_checklistEng.pdf

• **Check your health condition**

- Check your body temperature for fever every day.
- Watch carefully for such symptoms such as severe cough or difficulty breathing.

※ Pay attention to health condition of your close contacts as well.

• If you develop symptoms such as cough or fever of 37.5°C or higher, taking medicine for fever, etc.,

① **Wear a mask.**

- Avoid going out to prevent the spreading of infection to others.

② **Please contact Safety and Health Organization(SHO), Chiba University.**

(phone 043-290-2214 E-mail info-hsc@office.chiba-u.jp English available)

③ **Seek medical care.**

- When you seek medical care, please call and inform the doctor in advance that you have stayed in China. When you visit a medical institution and consult to a doctor, please wear a mask and tell your travel history.
